

ALEXANDRIA.

SATURDAY EVENING MARCH 9

READERS of the GAZETTE know that for a year past it has expressed its fear that in the next State campaign the republicans ered his resignation as U.S Railroad Com- of West Virginia was commenced yesterday would declare for the settlement of the State debt by accepting the terms of the creditors, cation except honesty, and the General was debt by accepting the terms of the creditors, and thereby either force the democrats to follow them into debt paying, as they did into rejudiction, or else to avow themselves as the repulisting party in Virginia. That fear is in a fair way of being realized. The Valley Virginian, the leading republican newspaper in the State, says :

"We are in for making a square issue with Lee and Edyson and the repudiating element of the democratic party on this question and policy. The creditors are willing to make a fair compromise if they are not approached with the highwayman's logic-"your money or your life"-and are met in a rational way by rational men for the pur pose of settling the debt controversy upon a rational, honorable and practical basis.

The Virginia democracy is thus faced by a condition and not a theory; and it required no prophet, but only common sense, to foresee it. To accuse the republicans, the original repudiators, of barefaced inconsistency will avail nothing, but to evoke their laugh. will avail nothing, but to evoke their laugh-commended by nearly all the prominent anter and ridicule, for they care for consist-ti Mahone Virginia republicans. Mr. Strothency as little as for anything else in the at er, of Fauquier county, and Mr. Botts, of tainment of their political ends. They have ene hundred thousand negro votes at their command, which they can cast for debt pay ing as readily as they did for repudiation, and on a debt paying platform they have strong hopes of so increasing their white vote as to give them the control of the State And yet some purblind Virginia democrats continue to croon the old refrain that the S ate debt is settled.

IF THE soldiers who treated the negrous in Washington as the Northern troops did last Monday and Tuesday had come from the South, or if negroes in the South were ever treated by Southern people as those in Washington were by Northern men on the occasion referred to, the howis that would be raised by the republican press throughout the entire North would be audible to the people of that section for months to come. As it is, however, the outrageous treatment to which many of the negroes of Washington were subjected by their party allies and professed friends is only spoken of by the republican press of the North as a manifestation of political enthusiasm and hilarity, and as nothing more than soldiers'

PRESIDENT HARRISON says: "The privile ges of American citizenship are so great and its duties so grave that we may well insist upon a good knowledge of every person applying for citizenship, and a good knowledge by him of our institutions." These are white people about whom Mr. Harrison is talking. And yet Mr. Harri-on not only favors the citizenship of every ignorant, brutal, semi-civi ized and voodoued negro in the South; but says, in effect, that those Southern communities in which such neshould be governed by them, and the white people therein be subservient to them. But that cou'd never be, no matter what Mr. Harrison says, as it would be against a hat-

IN THE Canadian parliament yesterday Mr. Mills made a speech in which he said that during the civil war in this country "the Governor of Vermont was actually negotiating for the annexation of his State to Canada ' And yet Mr. Harrison has such a high opinion of the loyalty of Vermont that be has selected his Secretary of War- from that Sate. He has such a poor opinion of Southern republicans that in all the Southern States he could not find a single, solitary man fit for a place among his constitutional

THERE ARE MANY works in this country st which steel rails are manufactured, but only four of them are now in operation, and that, too, though of all articles, steel rails are among those most protected by the tariff. Work has been suspended, and the hand- discharged, in order to diminish the supply, and thereby to increase the price of rails. This could not be save only and except for the tariff. And yet workmen continue to vote the republican ticket under the delusion that a high tariff protects labor.

Most ALL the democratic office holders in Washington, above the grade of those subject to the operation of the civil service law, have already tendered their resignations. This is highly commendable, and is in marked contrest to the course pursued by their immediate predecessors, who held on to their ; laces until asked to resign.

As a diversion, when the multitude becomes impatient at the White House, "Baby McKee" appears at the window to receive the homage and applause of the "madding

[Special Correspondence of the Alexs. GAZETTE]

WASHINGTON, D. C., March 9, 1889. E. T. Brace of West Virginia has been appointed chief clerk of the bureau of construction and repairs in the Nave Depart-

Representative Richard W. Townshend of Illinois died about noon to day in his rooms at the Rigg's House of pneumonia. He was a native of Prince George's county, Md., and a brother of Dr Townshend, health officer of this city. He was a prominent democratic member of the House. General Spinola, of New York, also a democrat, is extremely ill here of the same disease, and so is Mr. Buchanan, a republican member

from New Jersey.
General Longstreet is an applicant for the place of U. S. Minister to France, with, however, it is said, no probability of getting it, as the G. A. R. bave too much influence with Mr. Harrison to permit him to give ex

Confederates anything else than minor places, and only a few of them. General Joseph E. Johnston to-day tend appointed to it solely for that reason. S particular is he in respect of his honor, that though Col. Rogers, who is prosecuting the famous Pan Electric suit, publicly exonera ted the General from the faintest suspicion of crookedness in that matter, he is the only one whose name was ever mentioned in con nection with that suit who seems to take any interest in it, but he takes so much that he dec ined to attend the funeral of his nephew, ex Senator Johnston, for the rea son, as he said, that he must attend the trial of a case in Washington in which his "honor

was involved." Col. Dudley, of "blocks of five" notoriety, is to day classed among the kickers; and it is currently reported, has already been given a large share of that unpalatable dish cold shoulder.

Mr. Stewart, formerly a republican member of the Virginia legislature from one of the Reppahannock river counties, and who left General Mahone in the Chicago convention of 1884 and with Col. Sims went B aine, is an applicant for the place of Marshal for the D strict of Columbia, and is rec-Rockingham, are among the numerous ap-plicants for the place of collector of internal revenue for the Lynchburg district, for which Mr. McCaull is General Mahone's acknowledged favorite.

R-publicae Congressmen from Iowa say that ex Congressmen Hepburn, from their Sate, will be one of the assistant secretaries of the Treasury.

The Michigan people kicked up such a row over the report that General Duffield, one of Alger's men, would be appointed So licitor General, that the intention to appoint him was charged, and it is said to-day the lace will be given to somebody else. John Wise still casts longing eyes on this

place. Gen. Mahone is still here, and his rooms at Chamberlin's are always crowded with his partisans from Virginia, all of whom want offices, and all of whom labor under the delusion that his influence is sufficient to gratify their wants. Ex-Senator Riddle berger left for his home this morning, and so did ex-Representative Bowen. Ex-Repre sentative Brown, of the Denville district, left day before vesterday to attend the funeral of his little daughter, and Representative Browne left yesterday for Accomack, but will return next week.

Gan. Lee continues to improve, but is still confined to his quarters at the Ebbitt.

A great squabble is going on here to which there are three parties: the republicans who were removed from office during the democratic administration, the republicans who were retained in office by that administration, and republican office seekers who have never been in office. It is a regular Kilkenny cat fight, which the democrats ob serve with ghoulish glee.

To the Editor of the Alexandria Gazette:

My attention at this late hour baving been called to the report of the citizens' mass meeting held in the county on Feb. 9th, which appeared in your daily of the 12 h inst., permit me, through the medium of your columns, to correct the following statement : "Mr. W. W. Douglas was opposed to issuing bonds and said he was in favor of every person doing all he could to improve the roads individually, and otherwise, but to create a debt of \$30,000 or \$50,000, was too great a burden to impose upon the peo-Now, I wish to say that this statement is erroneous throughout. I never made such a statement nor any statement which could possibly be so construed. On the contrary, I expressed myself clearly and decid edly as favoring the bonding of the county in order to improve the roads.

I did state that since the question of issuing bonds would have to await legislative preventable, and in its earliest stage curaaction, which would necessarily involve one year's delay, and more, if finally ratified by vote of the people, I favored the citizens in the mean time doing all in their power to improve the roads in which they were im-

NEWS OF THE DAY.

Several Berlin papers announce that the Samoan conference will open about the 13 h instant.

The presidential church for the next four years is now a matter of speculative interest in Washington society.

The seventieth anniversary of the entry of Count von Moltke into the army was celebrated in Berlin yesterdey.

Gen. B. F. Butler, who was recently in Washington, says that this country recently escaped a war with Germany on account of the latter's fear of Gen. Boulauger. The British House of Commons yesterday,

Col. Charles Lee Jones died suddenly in Washington vesterday where he had spent he greater part of a life approaching three score and-ten. Col. Jones was the only surviving son of General Waiter Jones who was one of the greatest lawyers this country ever produced.

Considerable commotion was created in the Canadian parliament yesterday by the mo ion on the notice paper of Mr. Mills, of Annapolis, granting power to the governor general in council to institute and carry on negotiations for the annexation of the New England States, provided such annexation can be accomplished in a peaceable manner.

The New York Herald has taken a canvase of all sorts of opinions on the question "Who is the democratic leader?" Of 186 men of more or less prominence questioned 34 named Cleveland, 52 were in doubt, with Cleveland leanings, 72 named Governor Hill, 16 favored S. J. Randalland 12 W. C. Whitney. The Hill element came chiefly from the Tammany ranks.

During yesterday ofternoon Virginia po'iticians were conspicuous around the White House, and occupied not a little of the Pres ident's time. The principal offices for which were hustling are the solicitor generalship for which ex Attorney General Frank Blair is a prominent candidate; and the collectorship of internal revenue at Lynchburg, for which James Frazier and Brown Atlen are the most prominent can The partisans of the gentlemen are working actively, and there promises to be quite a fight for the two positions.

Consumption Curable.

Since the fact that consumption is both ble, it has lost much of its terror. If the first symptoms are at once recognized, and proper remedy applied, very few, if any one, need die of consumption, which is real ly lung-scrotula. Like many other diseases The President now receives the crowds subscription, as there would still be ample blood, and this, in turn, from a diseased liver.
